TV documentary maker called on university expert to help fix dementia care

A method of improving care, pioneered by the university's **Dementia Group**, and featured as part of a BBC2 documentary, transformed a declining Cannon Care home into a thriving business, capable of delivering a new model of excellence for the industry.

As a result of the partnership

- The business is exploring how university expertise can continue to help improve their skills
- Residents enjoy a high standard of care within an organisation aiming for centre of excellence status in the UK care industry

Case Study 8

Greener, safer building material of the future

Liquid Granite, a revolutionary fire resistant building material developed by university scientists, could make buildings safer and save lives.

Licensed and marketed through a new company **Liquid Granite Ltd**, the product is

- Made from recycled materials
- Used like concrete but does not explode at high temperature
- Being used in building the Olympic Village

Call Alison Money on 0114 225 5000 or email business@shu.ac.uk

Case Study 9

Plant breeding experts chosen by Boots for new products

Boots turned to biologists at the university to create a new generation of skincare products from plant oils.

The university has expertise and technology to determine plant oils composition and the MetAnOil project received £460,000 funding from the Technology Strategy Board.

Knowledge gained

- Produced a pipeline of new skincare products
- Resulted in a number of novel industrial hemp varieties

Call Dr Joe Ross 01904 435289 or email jr23@york.ac.uk

Case Study 10

Keeping Nestlé fit across the world

University sports scientists are helping **Nestlé** staff across the globe to stay fit and healthy in the workplace.

Mutual benefits of this partnership include

- Development of workforce health and fitness programmes and qualifications
- Nestlé managers mentor start-up businesses at the university
- Work placements for students
- Jointly developing modules for the university's business school
